

September 30, 2009

Dear Chris:

Thank you so much for the masterpiece you created in my kitchen. From Matt's unbelievable design to your attention to detail, I appreciate the craftsmanship every day. I am so thankful that you had time in your busy schedule to do it.

Although I know you had many irons in the fire, you were attentive to my project every week. Any small area of concern seemed to be noticed by your craftsmen and remedied almost before I could call attention to it.

Your crew was always professional and timely. I have heard many horror stories about remodeling. I am happy to say I cannot relate to them. The experience was almost as good as the result.

Sincerely,

Marjorie Knotts
